and mobile eLearning*

# CareerApp

## Innovation #285

### PRODUCT OVERVIEW

- DATA SOURCES & CONTENT

Job Descriptions  
Learning Maps  
Skillport  
RHIU

- APPLICATION TECHNOLOGY

Android Phone & Tablet  
Iphone/IPAD  
Windows Mobile Phone & Tablet

- Audience

Staffing & Protiviti personnel  
Candidates

### STAND OUT FROM THE CROWD! PLAN YOUR CAREER GROWTH & MAXIMISE LEARNING OPPORTUNITIES

#### THE CHALLENGE

Career development is a key driver in the day to day life of our staff and candidates. Career visibility is essential to attract new talent.

Learning is one of the building blocks of career progression.

Helping staff better engage with their career and with their development is a day to day challenge which we are answering in different ways (Performance Appraisals, eLearning Hubs, Learning Maps, Half Times spotlights, ...).

Information is sometimes found in multiple online systems which require their own login.

#### THE SOLUTION

CareerApp is a Career Explorer & eLearning Hub mobile app leveraging RHI eLearning content (Skillport, RHIU) to provide candidates and field personnel with an insight into careers in their professional field (Staffing, Protiviti, Technology, Management Resources, Legal) and the means of accessing the learning content relevant to each role.

CareerApps provides a graphical browser to view careers in IT, Finance, Staffing, and, depending on the viewer's access rights, gives you access to learning content from Skillport and RHIU.
